Allowable Subject Matter

1. Claims 20-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: prior art does not teach in combination with the other limitations of the independent claims the injection of the second fluid "at a point prior to said inner spiral flow".

Note that: 1) in Blackman 3158997 the second fluid is injected through hole 54 into the midst towards the downstream portion of the inner spiral flow; 2) the fuel injection in Drexhage 3712059 creates flows around axes that are perpendicular to the plane of the page, and NOT a SPIRAL flow around an axis in the plane of the page - as in the claimed invention; 3) the second fluid in Coffinberry 4840025 is injected NOT through wall, but through an injector penetrating the combustor space, and the fluid is injected INTO the inner spiral flow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ehud Gartenberg whose telephone number is 703/308-2634. The examiner can normally be reached on Monday-Thursday.
